#### **DETAILED ACTION**

## Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 10 May 2005 has been entered.

2. Claims 76-150 have been presented for examination.

# Response to Arguments

3. Applicant's arguments, see pages 18 and 19, filed 20 October 2004, with respect to claims 76-150 have been fully considered and are persuasive. The rejection of claims 76-150 has been withdrawn.

### Allowable Subject Matter

- 4. Claims 76-150 are allowed.
- 5. The following is an examiner's statement of reasons for allowance:

As noted in the Applicant's arguments, the prior art references do not teach wherein the specifying member comprises perforations or projections which is placed on a touch screen, wherein the perforations or projections specify the different coordinates. Since the aforementioned limitation cannot be found, and there is no such motivation to be found to perform the abovementioned limitation, the claims are therefore novel and non-obvious.

Application/Control Number: 09/835,128 Page 3

Art Unit: 2131

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### Conclusion

- 7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
- 8. The following patents are cited to further show the state of the art with respect to inputting coordinates via predetermined touch areas, such as:

United States Patent No. 5,559,961 to Blonder, which is cited to show a user to "touch" predetermined areas of an image in a predetermined sequence as a means of entering a password.

- 9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christian La Forgia whose telephone number is (571) 272-3792. The examiner can normally be reached on Monday thru Thursday 7-5.
- 10. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ayaz Sheikh can be reached on (571) 272-3795. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
